FOR IMMEDIATE RELEASE  
April 3, 2018

## Amaronia Ltd. to distribute era-contact GmbH UIC- and HAKU-Connectors

Distribution in Finland, Sweden, Norway, Denmark, Argentina, Brazil, Chile, Mexico,  
Peru, South Africa, Israel, and Australia

Espoo, Finland, April 3<sup>rd</sup> 2018 – Amaronia Ltd. and era-contact GmbH today announced a new distribution agreement, whereas Amaronia Ltd. will start, with immediate effect, to distribute era-contact GmbH UIC and HAKU-Connectors, designed for the railway industry. The agreement covers the territories of Finland, Sweden, Norway, Denmark, Argentina, Brazil, Chile, Mexico, Peru, South Africa, Israel, and Australia.

*“We are extremely proud to cooperate with era-contact to expand their business, by providing the Amaronia expertise, experience and network of local added value partners. The era-contact GmbH product range is widely accepted in the industry as being very high-quality, reliable and cost efficient.” said Samuel Krüger, CEO & Partner of Amaronia Ltd.*

The UIC- UIC552 VE, UIC558 VE and UIC541 VE are industry standard, high quality connectors, designed to be used to enable railway coaches or wagons to connect the power easily and reliably to each other. The connectors are crucial for a reliable operation, where power needs to be distributed from coach to coach. The HAKU-connectors are designed to be used for filling level monitoring, e.g. for diesel-powered vehicles or diesel locomotives or for locomotive lighting.

*“With our series of UIC connectors 552, 558, 541 and UIC IT we have successfully established ourselves on the market. Now we want to expand our network - the expertise that Amaronia can offer us as a top partner made it easy for us to decide to work together. We look forward to a productive cooperation.”*  
*said Christoph Schill, Director of Sales era-contact.*

**Amaronia Ltd. [www.amaronia.com](http://www.amaronia.com)**

Established in 2014, Amaronia Ltd. is a company focused on helping to deliver marketing and sales services for customers seeking support in expanding to new geographical areas they have no previous experience in. Amaronia’s expertise can be found in the transportation segment, and is supported by a wide range of cultural and language understanding and a large network of local partners.

**era-contact GmbH [www.era-contact.com](http://www.era-contact.com)**

era-contact, a company of the aichele GROUP, is a medium-sized, owner-managed family business in the second generation. With around 90 years of experience, era-contact operates successfully in the railway, automotive, commercial vehicle, construction machinery, measurement and medical technology sectors as well as in mechanical and plant engineering. As the world market leader for electrical rail couplings and as an innovative system provider for high-tech products and solutions in the field of cable assembly, UIC connector systems and contact systems, era-contact manufactures local by local and supplies business partners and customers worldwide.
